

ANTECEDENT ANALYSIS SUMMARY

Total findings: 38

1. Claim 1

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

2. Claim 1

Type: LIMITING_PREAMBLE

Term: "a stationary support"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

3. Claim 1

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

4. Claim 1

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

5. Claim 1

Type: MISSING_ANTECEDENT

Term: "the first movable rail bearings"

Message: No clear antecedent found for 'the first movable rail bearings'.

6. Claim 1

Type: MISSING_ANTECEDENT

Term: "the second movable rail bearings"

Message: No clear antecedent found for 'the second movable rail bearings'.

7. Claim 1

Type: MISSING_ANTECEDENT

Term: "the stationary rail bearings"

Message: No clear antecedent found for 'the stationary rail bearings'.

8. Claim 1

Type: MISSING_ANTECEDENT

Term: "the stationary rail bearings"

Message: No clear antecedent found for 'the stationary rail bearings'.

9. Claim 1

Type: MISSING_ANTECEDENT

Term: "the movable rail bearings"

Message: No clear antecedent found for 'the movable rail bearings'.

10. Claim 1

Type: MISSING_ANTECEDENT

Term: "the movable rail bearings"

Message: No clear antecedent found for 'the movable rail bearings'.

11. Claim 1

Type: MISSING_ANTECEDENT

Term: "the stationary rail bearings"

Message: No clear antecedent found for 'the stationary rail bearings'.

12. Claim 1

Type: MISSING_ANTECEDENT

Term: "the stationary rail bearings"

Message: No clear antecedent found for 'the stationary rail bearings'.

13. Claim 1

Type: MISSING_ANTECEDENT

Term: "the movable rail bearings"

Message: No clear antecedent found for 'the movable rail bearings'.

14. Claim 1

Type: MISSING_ANTECEDENT

Term: "the stationary rail bearings"

Message: No clear antecedent found for 'the stationary rail bearings'.

15. Claim 2

Type: MISSING_ANTECEDENT

Term: "the mounting bracket"

Message: No clear antecedent found for 'the mounting bracket'.

16. Claim 3

Type: MISSING_ANTECEDENT

Term: "the opposite corners"

Message: No clear antecedent found for 'the opposite corners'.

17. Claim 3

Type: MISSING_ANTECEDENT

Term: "the corresponding stationary rail bearings"

Message: No clear antecedent found for 'the corresponding stationary rail bearings'.

18. Claim 12

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

19. Claim 12

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

20. Claim 12

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

21. Claim 12

Type: LIMITING_PREAMBLE

Term: "a stationary support"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

22. Claim 12

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

23. Claim 12

Type: LIMITING_PREAMBLE

Term: "a movable body"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

24. Claim 12

Type: MISSING_ANTECEDENT

Term: "the movement"

Message: No clear antecedent found for 'the movement'.

25. Claim 12

Type: MISSING_ANTECEDENT

Term: "the opposite corners"

Message: No clear antecedent found for 'the opposite corners'.

26. Claim 12

Type: MISSING_ANTECEDENT

Term: "the first bearings"

Message: No clear antecedent found for 'the first bearings'.

27. Claim 12

Type: MISSING_ANTECEDENT

Term: "the second bearings"

Message: No clear antecedent found for 'the second bearings'.

28. Claim 12

Type: MISSING_ANTECEDENT

Term: "the first bearings"

Message: No clear antecedent found for 'the first bearings'.

29. Claim 12

Type: MISSING_ANTECEDENT

Term: "the opposite corners"

Message: No clear antecedent found for 'the opposite corners'.

30. Claim 12

Type: MISSING_ANTECEDENT

Term: "the second bearings"

Message: No clear antecedent found for 'the second bearings'.

31. Claim 12

Type: MISSING_ANTECEDENT

Term: "the opposite corners"

Message: No clear antecedent found for 'the opposite corners'.

32. Claim 12

Type: REVERSE_ANTECEDENT

Term: "the bottom"

Message: Reverse antecedent: 'the bottom' is referenced before its introduction.

33. Claim 14

Type: LIMITING_PREAMBLE

Term: "a movable rail-side sliding part"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

34. Claim 14

Type: LIMITING_PREAMBLE

Term: "a movable rail-side sliding part"

Message: Potential limiting preamble term: Term introduced in the preamble is reused in the claim body.

35. Claim 14

Type: MISSING_ANTECEDENT

Term: "the first bearings"

Message: No clear antecedent found for 'the first bearings'.

36. Claim 14

Type: MISSING_ANTECEDENT

Term: "the second bearings"

Message: No clear antecedent found for 'the second bearings'.

37. Claim 14

Type: MISSING_ANTECEDENT

Term: "the open bottom"

- a single pair of movable rail tracks having a first movable rail track formed on the first upper corner and a second movable rail track formed on the first lower corner;
- a stationary rail to be fastened to the stationary support and disposed below the movable rail, the stationary rail having a second space defined in the stationary rail, the stationary rail comprising:
 - a stationary rail body disposed below the movable rail such that the movable rail overlaps with the stationary rail body, the stationary rail body having a second opening on a top of the second space, the stationary rail body having a third upper corner, a third lower corner diagonally facing the third upper corner, and a fourth lower corner; and
 - a single pair of stationary rail tracks formed on opposite corners diagonally facing each other in the second space;
 - a slider extending from the first space and the second space through the first opening and the second opening, the slider having a single pair of movable rail connection tracks comprised of a first movable rail connection track facing the first movable rail track and a second movable rail connection track facing the second movable rail track in the first space and a single pair of stationary rail connection tracks in the second space; and
- first bearings provided between the first movable rail track and the first movable rail connection track and between the second movable rail track and the second movable rail connection track, second bearings provided on [the opposite corners]
MISSING_ANTECEDENT
Review antecedent for 'the opposite corners' diagonally facing each other in the second space, [the first bearings]
MISSING_ANTECEDENT
Review antecedent for 'the first bearings' and [the second bearings]
MISSING_ANTECEDENT
Review antecedent for 'the second bearings' rolling in contact with the movable rail and the stationary rail, respectively;
- wherein the slider in the movable rail body diagonally extends toward the second upper corner of the movable rail body, the slider diagonally extended toward the second upper corner of the movable rail body is bent to form a first sub-bent portion, and the slider extended from the first subbent portion diagonally extends toward the second lower corner of the movable rail body;
